

HOW TEENS CAN USE SOCIAL MEDIA TO **CHANGE THEIR WORLD**

1

Be the voice of an encourager to others. It stands out.

2

Post meaningful messages and photos that stand in contrast to the constant barrage of selfies, latest fashions, and bikini shots.

3

Crowdfund for a worthy cause.

4

Educate people about important events in the world by sharing important information.

5

Highlight inspiring people in your posts, or connect with these unique individuals online.

6

Promote creativity by posting original ideas and projects.

7

Reach out to someone who needs it. The tone of social media posts often reveal how someone is doing – take notice.

8

Get more involved in your community by following events and local organizations.

9

Plan a service outreach of some kind, and promote it through social media.

10

Promote media-free experiences with friends. Get together and hike, go camping, or watch the sunset.
